

This water colour can be found in the Rymarz Gallery at The Costessey Centre. It was commissioned by Barbara & Maurice Houldsworth who ran the Post Office and they used it to produce Christmas Cards

It's been another busy year for the Council. My thanks go to the sixteen volunteer Town Councillors who give up their own time to make decisions for the best interests of the community and at the next Town Council Elections in May 2019 we will require nineteen volunteers as a result of the growth. Thanks also to the Town Council staff, who have dealt with hundreds of enquiries from the public relating to the work of the Council and signposted many to the relevant organisation/agency. Don't forget we publish the majority of work on our website and we've invested heavily in IT improvements to make us more efficient. Next year we will also welcome more new residents with new homes being occupied at Lodge Farm Phase Two and Queen's Hills. Best Wishes for a Merry Christmas and a prosperous New Year. Patrick O'Connor, Town Council Chairman.

MANAGEMENT OF OUTDOOR SURFACES & GRITTING ON OUR PREMISES

The areas covered by the Costessey Town Council policy are hard surface car parks and hard surface footways to the main entrances of buildings, and the policy has been developed following a review of the existing risk assessments.

We will inspect hard surface car parks and access ways to buildings daily during severe weather conditions, and will take action as deemed appropriate. This may include clearing snow near entrances & disabled car parking spaces, displaying suitable notices, closing car parks, or other measures that may be considered practicable.

- We will grit/salt entrances to car parks or footway entrances to buildings, and disabled parking spaces. The remainder of the parking areas or non-essential access routes **will not** be gritted/salted.
- We will keep a record of any action taken.

The roadside Grit Bins are maintained by us but re-filled by Norfolk County Council. Grit in the bins should not be used for private driveways. Priorities for gritting roads have been established on the basis of the route hierarchy and level of use.
